Workshop/Seminar:
BIO-ENERGY DETECTION & MEASUREMENTS

Our program will demonstrate the leading edge technologies that are currently being used in the field and the opportunities to develop a credible research method for investigating all energy medicine modalities.

We are proud to present two esteemed speakers in the field: Dr. Beverly Rubik and Dr Claude Swanson. They will begin the program each day by sharing their experiences in measuring and researching the human biofield and subtle energy. We hope you can join us, as many of the important technologies mentioned will be on hand and we are happy to give live demonstrations. More importantly we would like you to help us deliver this truly unique opportunity to explore the frontiers of health sciences.

**Date and Time:** 09:30am ~ 5:30pm, March 19th (Sat)-20th(Sun)

**Venue:** Lecture Hall, California Institute for Human Science

**Fees:** General $195 ($165 - registration before March 5)
Student $150 ($120 - registration before March 5)

Participants are encouraged to register online from the CIHS website:
http://www.cihs.edu/workshops/main.htm

For other methods of registration and general inquiries please contact:
Ms. Tamiko Voros, 760-634-1771 ext.101

Supported by:

Foundation for Alternative and Integrative Medicine
(formerly The National Foundation for Alternative Medicine)
Day 1.
Biofield imaging and assessment devices and their research applications.

09:30-10:00am: Thornton Streeter, D.Sc. and Toshiaki Harada, Ph.D.
Welcome Address

10:00-11:30am: Keynote Address: Dr. Beverly Rubik
Measuring the Human Biofield and subtle energy.

11:30-11:45: Break

11:45-1:00pm: Thornton Streeter, D.Sc.
Mapping the chakras, the meridians and the human body’s emissions with biofield imaging technologies

1:00-2:00pm: Lunch Break

2:00 – 3:00pm: Kimberly Schipke, M.S.
Introduction and uses of Medical Thermal Imaging

3:00 -5:30: Krishna Madappa, Bob Hertz and Lucy Roberts
Electro photonic Imaging, Gas Discharge Visualization, and the Eco-Sensor

Demonstrations, individual scans & hands on training with all the devices.

17:30pm: End of Day 1 Training
19.30pm: Dinner and Discussion on Definition of terms in Energy Medicine.
Day 2.

09:30-11:15am: **Opening Lecture: Claude Swanson, Ph.D.** Life Force: the scientific basis and the future of subtle energy research.

**AMI for Bio-energy Research**

11:20am-12:00pm: **Toshiaki Harada, Ph.D.**  
“Principles of the AMI (Apparatus for Meridian Identification) & its Application to Research”

12:00-1:30pm: **Lunch Break**

1:30-2:15: **Gaetan Chevalier, Ph.D.**  
“Similarities and Dissimilarities of Meridian Functions between Genders”

2:15 - 3:30pm: **Koji Tsuchiya, Ph.D.**  
Live Demonstration of Experiment: “Detection of Qi-energy Movements by Continuous AMI Device”

3:30-3:45pm: **Break**

3:45-5:15: Experience for students of conducting AMI Experiment  
Live Experiment with Audience Participation: “Before-After Qi-energy Changes by Meridian Exercise”

5:15-5:30pm: **Toshiaki Harada, Ph.D. and Thornton Streeter, D.Sc.**  
Closing Remarks
