HOLISTIC APPROACHES TO COLLEGE COMPLETION

Bachelor of Arts Degree Completion Program in Integral Studies

Complete your bachelors degree in a highly customizable, multi-disciplinary course of study that emphasizes a holistic understanding of the human condition and experience.

FOLLOW YOUR PATH FIND YOUR FUTURE

Receiving higher education from an institute such as CIHS was the most transformative journey of my life. Academic rigor paired with spiritual awakening, psychological healing, and professional development put me through the wringer. I had never felt more complete, whole, and connected to the higher truths that I had never known I already knew. At the same time, my entire worldview was shaken and flipped upside down. I have come to see life, existence, and the perception of the physical world in an entirely new way. I have come to understand, witness and meet the force of nature that underlies human consciousness, that is to the extent of my own psycho-spiritual evolution.

California Institute for Human Science

Located near the coast in the beautiful, beach-city of Encinitas in San Diego, California, CIHS is a private, non-profit, regionally accredited university, research center, and public learning community committed to exploring the interconnection of mind, body and spirit through research-informed programs in integral health, integral noetic sciences, and psychology.

TRANSFORMATIVE EDUCATION TRANSCENDENT EXPERIENCE

CIHS's Bachelor's Completion Program gives students who have already completed their general education requirements the freedom to take a highly customizable, multi-disciplinary and/or specialized approach to the study of the human condition and experience through the lens of mind, body, and spirit.

Students explore their own interests while securing a firm foundation in science, natural science, research methods, philosophy, psychology, and religion. With this basic foundation, students are encouraged to undertake either qualitative or quantitative research into the nature and breadth of human experience.
